| Water Station    | **See detailed directions attached**  
• **Part Safety Officer:** Our first priority is to provide a safe course for our runners. Please keep the course free of debris and communicate any medical/safety issues to your Medical Team member and Communications Team member. Water Stations can begin to clean up when the sweep bike comes by to tell you that last runner has come through.  
• **Part Cheerleader:** Cheer the runners on—it’s a long course, for some runners 26.2 miles, and you’ll be the only people they see for miles. Get up, get excited, and keep them moving. Be creative, decorate your hydration station in a theme, bring a radio to play music, wear funny hats—you’ll be part of the inspiration that keeps the runners moving. Do not tell runners they are almost there no matter where you are on the course. Use words of encouragement like “Good job!” “Keep going!” “Dig deep, you can do it!”  
• **Runner Hydration:** As runners pass by, shout what you are holding (water or Gatorade) and hand to runners as they pass. As you hold out cups to runners, hold cup at the bottom so runner can easily grasp cup from you. Continue to pick up cups that runners have discarded on course to maintain safe and clear course for runners. | Yellow       |
| Water Station – Medical | Provide emergency medical support if needed. Communicates through HAM radio operators if EMS services are needed. Lehigh Valley Hospital nurses, physician assistants, physicians, physical and occupational therapists, etc. will fill these posts. Will be certified in CPR and First Aid. Medical can leave when the sweep bike comes by to tell you that last runner has come through. | Medical Vests/Light Blue |
| Course Marshalls | • **Part Safety Officer:** Our first priority is to provide a safe course for our runners. Course Marshalls are positioned throughout the course usually at intersections and are responsible for directing runners at turns. Marshalls can leave when the sweep bike comes by to tell you that last runner has come through.  
• **Keeping Runners on Course:** As soon as you see a runner, begin to signal with your hands and your voice which direction or turn they are supposed to make. Often runners get in a zone and need plenty of advance warning to know which way to head. A leg captain on a bike will pass by your location prior to the runners to verify all volunteers are in place. They will be able to tell you which direction or turn the runners are going to make at your location. If all else fails, point runners in the direction of the lead bike which will pass you just before the runners come by your post.  
• **Part Traffic Cop:** Course marshals are positioned at intersections that are blocked for traffic. Responsible for keeping cars off the course and maintaining a safe environment for runners.  
• **Part Cheerleader:** Cheer the runners on—it’s a long course, for some runners 26.2 miles, and you could be the only people they see for miles. Get up, get excited, and keep them moving. Be creative, bring a radio to play music, wear a funny hat—you’ll be part of the inspiration that keeps the runners moving. Do not tell runners they are almost there no matter where you are on the course. Use words of encouragement like “Good job!” “Keep going!” “Dig deep, you can do it!” | Yellow & Foam Finger |

Water Station Set-Up
Thank you for volunteering!

We truly appreciate your support in making this a community supported event helping children and adults with disabilities living in the Lehigh Valley. You are making a difference!

Volunteers should drink bottled water.

Please reserve gallons of water and Gatorade for runners.

Water Station Team:
- 15 Water Station Volunteers
- 1 Medical Staff (CPR certified, equipped with medical supplies)
- 1 Communications Team member (equipped with radio)

Staffing Needs:
- 5 people setting up cups
- 12 people pouring fluids
- 10 to 12 people out front handing out to runners (above volunteers can move into these positions as needed)

Water Station Supplies:
- Gatorade Cups
- Water Cups
- Warning Flags (red, yellow, green)
- Tables
- Water
- Gatorade Cooler
- Gatorade Concentrate
- Stirrer
- Plastic Gloves
- Ice (Water Station Captains to Bring)
- Garbage Can & Bags
- Rake (Water Station Volunteers Bring)

Water Station Set-Up:
- Each water station will have a supply container. It will either be UNIT 12’ container or a 12’ Penske truck. It may be locked with a combination lock. The combination is R-A-C-E.
- Set up all 5 tables in you container in a straight line, spacing the tables 25 feet apart from each other. The first 2 tables will be set up for Gatorade, the second 3 tables will be set up for water.
- Gatorade only goes in Gatorade cups. Water may go in any other cup you have in your stock.
- Cover the entire table with cups. A table should hold approximately 300 cups.
- From a gallon container, fill cups with either water or Gatorade pouring down row after row in an expeditious manner.
- Each station will have 2 - 6 gallon Gatorade thermoses and Gatorade concentrate in 1 gallon bottles. 1 gallon of concentrate makes 6 gallons of Gatorade. Plastic stirrers will be provided.
- As runners come by, hand them a cup of fluid they request. Hold the bottom of the cup so the runners may grab it without stopping.

Water Stations 2 & 3:
All 2,250 runners will hit your water station quickly and in a large pack. Have your water and Gatorade set up and ready to go for your first runner, see your volunteer assignments for time of first expected runner.
Water Station Set-Up (continued)

Water Stations 8 & 9:
All 1,000 runners will hit your water station quickly and in a large pack. Have your water and Gatorade set up and ready to go for your first runner, see your volunteer assignments for time of first expected runner.

Water Stations 8 to 15:
The half marathon starts at 7am at Main and Walnut Streets in Bethlehem. After your first wave of runners (half marathon runners), you will experience a short lull while waiting for the relay teams and marathon runners to reach you. Take this time to replenish your supplies of Gatorade and water. Your 2nd wave of runners will hit about 45 minutes after the first wave. If you need to mix more Gatorade, do so at this time. Pour in 1 gallon jug of Gatorade concentrate. Pour in 5 gallons of water. Put lid on Gatorade Cooler and shake Cooler. Mix. Two people can do this, one on each side of the cooler. Repeat if you have more than one Gatorade Cooler.

Water Station Clean-Up:
- When notified by Sweep Biker that last runner has passed, it’s time to break down.
- Place all empty gallon bottles back in the boxes they came in and stack them back on the pallet in the container in an orderly manner.
- Empty Gatorade Thermos.
- Place all water station supplies back in the rear of the container.
- Clean up the water station site and place all trash in the large plastic bags supplied to you and place them in the front of the container.

Your Responsibilities:
- **Part Safety Officer**
  - Our first priority is to provide a safe course for our runners. Please keep the course free of debris and communicate any medical/safety issues to your Medical Team member and Communications Team member.

- **Part Cheerleader**
  - Cheer the runners on – it’s a long course, for some runners 26.2 miles, and you’ll be the only people they see for miles. Get up, get excited, and keep them moving.
  - Be creative, decorate your hydration station in a theme, bring a radio to play music, wear funny hats – you’ll be part of the inspiration that keeps the runners moving.
  - Do not tell runners they are almost there no matter where you are on the course. Use words of encouragement like “Good job!” “Keep going!” “Dig deep, you can do it!”

- **Runner Hydration**
  - As runners pass by, shout what you are holding (water or Gatorade) and hand to runners as they pass.
  - As you hold out cups to runners, hold cup at the bottom so runner can easily grasp cup from you.
  - Continue to pick-up cups that runners discard on course to maintain a safe and clear course for runners.
  - Note: not every runner will take water or Gatorade at every hydration station.

Thank you for your time and energy today – we appreciate your support in creating success every day for the people we serve.
Via of the Lehigh Valley is a non-profit agency that provides services for children and adults with disabilities like autism, cerebral palsy, Down syndrome.
